

SUSTAINABILITY POLICY

WHAT WE BELIEVE

Since our inception in 1992, Cyber Graphics has been committed to serve the prepress needs of our flexible packaging customers around the world. Our focus is on delivering products and services of the highest quality while constantly striving for continuous improvement in everything we do. We believe that with this dedication to quality and continuous improvement comes the fundamental requisite to act as responsible stewards of our society and the environment.

WHAT WE PROMISE

Cyber Graphics is firmly committed to conducting our business operations in an environmentally sound manner while protecting the interest of our families and the environment in which we all share. As a responsible prepress flexible packaging company, our promise is to:

- Understand the overall environmental impacts of all our key business decisions
- Promote a philosophy of responsibility through education
- Dedicate the resources needed to make measurable progress every year
- Cultivate a team committed to addressing sustainability in our products and processes
- Collaborate with customers and suppliers to support sustainable products and practices that benefit our mutual businesses
- Comply with all of the applicable environmental, health and safety regulations in our industry
- Strive for the elimination or significant reductions of waste, pollution and emissions in our operations
- Continuously reevaluate our performance and accomplishments through yearly reviews

Terry Young, General Manager
